

Samuel Olanrewaju

I am a hardworking and goal-driven developer, passionate about Information Technology and art. This passion made me take courses on web development because I was curious about how websites worked. After finishing the web development course by "The London app brewery", I was able to attain a strong knowledge of full stack web development. Thereafter, I put most of my focus on front end development which led me to learn technologies like ReactJS, NextJS, Tailwind CSS, Framer motion and GSAP. Now I am looking for a company to start my career in this field. I aim to learn as much as I can about web development and at the same time investigate other fields in IT like App development for various platforms and the integration of Artificial intelligence in our everyday lives and find ways to merge my love for art with my love for IT.

EDUCATION

- **B-TECH COMPUTING: INFORMATION TECHNOLOGY, LINCOLN COLLEGE**
SEPT 2023 – JUL2024
 - Database Management, Programming, Web development, Application design and development, Information Technology Systems, Social Media Strategies, Continuing professional development, Communication skills, Presentation skills and Teamwork.
- **HIGH SCHOOL DIPLOMA, PRIMEWILL CITY COLLEGE. NIGERIA**
SEPT 2014 – JUL2020
 - Mathematics, English, Physics, Chemistry, Biology, Economics, Geography, ICT, Civic Education. Here I attained the role of assistant head Prefect. As the assistant head prefect, it was my job to lead the other prefects in their duties. I also represented the school at events and made public speeches. I served as a role model for students and shared students' ideas to the school's leadership. (This is equivalent to a GCSE)

CERTIFICATES

 - This certificate confirms that I have completed the complete 2024 web development bootcamp.
- **B-TECH COMPUTING: INFORMATION TECHNOLOGY Y1**
 - This certificate confirms my completion of the Computing: Information Technology course. **grade:** merit

WORK HISTORY

Freelance Web Developer

JAN 2023 – Present

- Designed and developed responsive, user-friendly websites tailored to clients' needs using React.js, Tailwind CSS, and other modern frameworks. Collaborated with clients to gather requirements, propose design solutions, and implement features effectively. Integrated APIs and managed backend functionalities using Node.js and MongoDB. Improved website performance and optimized user experience through testing and debugging. Delivered projects punctually while maintaining high-quality standards.

Digital Artist.

JUL 2023 – Present

- The Plain Shop. London, Uk
 - Created digital artworks of the plain shop's characters in my own art style. Reviewed artwork with the art director and made changes were due. Artworks were displayed at Adobe on their wind rush day, and they were put out for auction by Reach Out on a charity auction event.
- Domeasolid
 - Created multiple graphic and UI elements for the company's rebrand and website rework. Here I redesigned their logo, making it simple yet modern, I created various animations and digital art pieces, each meeting the company's needs and standards. I also created different typography assets for the company.

Crew member

DEC 2022 – present

- McDonald's Lincoln, Uk
 - Provided excellent customer service by taking orders, preparing food, and ensuring a positive dining experience. Collaborated with team members to maintain a clean and organized work environment. Followed established procedures and safety guidelines to ensure food quality and customer satisfaction. Adapted to fast-paced situations, ensuring efficient operations during peak hours.

Air Freight Operations Assistant

JUL 2022 – NOV 2022

- Kasz-Tee Global Concept Nig Ltd. Lagos, Nigeria
 - Assisting the operations supervisor in his day-to-day activities. Location of cargo inside the warehouse for my operations supervisor. Helped with the positioning of cargo for customs examination by relevant government agencies. Assisted in monitoring the loading of cargo into the delivery van.
